

PRODUCTS & SERVICES

SimplyHome System By communicating with multiple sensors to observe activities of daily living, the *SimplyHome* System proactively alerts caregivers and loved ones of changes in behavioral patterns. Text, email or phone alerts can be generated by a single event, an intersection of multiple events, or by inactivity.

NucleusCare Using a live, two-way video on a tablet style device keeps individuals connected to their care team while living independently. Remote support team members can drop in for video check-ins, schedule reminder messages, and perform wellness checks with ease.

Personal Emergency Response System A pre-programmed base unit and waterproof pendant allow you to press a button for rapid assistance from our 24/7 call center, connecting you to caregivers, family, friends, or emergency services.

Medication Dispenser A locked, programmable medication dispenser that features automated alerts, including calls, texts, or emails. Prompt individuals to take the appropriate dose on schedule and keep medications secure when it is not time to take them.

Environmental Controls EC systems enable individuals with limited mobility to remotely operate lights, TVs, doors, smart thermostats, and more via tablet or switch controls. EC systems can be paired with the *SimplyHome* System to provide alerts.

Ring Video Doorbell® See and speak with visitors from anywhere using your smartphone. Receive instant alerts when someone presses the button on your Ring® Video Doorbell or motion is detected outside the home. Optional cloud recording allows you to watch recorded footage at any time.

Education & Consultation *SimplyHome's* interactive online classes combine evidence-based practical recommendations with stories, videos, and printable resources for organizations, staff, families, community partners, and individuals receiving services.

Virtual Care Management® Virtual Care Management® is our company's model for client care. A highly trained Virtual Care Specialist reviews trends in data from our technologies and consults with families, caregivers, and clients to plan routines and services that enhance daily living.
